

Stuart House, Weston-super-Mare

Type of care:

Residential dementia – specialist care for people living with dementia. Long term, short term and respite.

Our friendly home nestled in a traditional Victorian terrace is cosy and welcoming and well renowned for its family atmosphere. Located close by is the famous Weston-super-Mare seafront.

One of the characteristics that people really love about Stuart House is that it's small and intimate. For some people this is particularly reassuring. The homely decor adds to the feeling of comfort and security.

There's something to look at or touch around every corner. Brightly coloured walls and rails and beautiful textured drapes add interest to our home and help people to orientate themselves.

From our light and airy lounge, French windows open onto a patio featuring raised beds that residents enjoy tending. Our pleasant garden features a lawn, borders with shrubs and a sensory area filled with interesting colours, smells and textures.

The home's minibus is available for outings and a range of daily activities and events take place in the home everyday.

Seeing life through our residents’ eyes

All staff in our dementia homes – from maintenance and catering to care and nursing – receive specialist training in dementia awareness. This helps them to experience life through the eyes of a person living with dementia.

Activities

At Notaro Homes we understand the importance of meaningful activities. They play a vital role in helping our residents live life to the full, whatever their physical ability. Our activities are not only designed to engage mind, body and spirit but to respect and honour our residents’ individuality. Each of our homes have their very own Activities Coordinator who is responsible for organising and delivering a fun packed, varied programme which often includes trips out and about and visits from animal sanctuaries, community groups and theatrical companies.
